

UNTREATED GLASS AND HARDWARE CARE INSTRUCTIONS

WARRANTY

The below cleaning recommendations must be followed for enclosure care or 1-year warranty will be voided.

GENERAL GLASS CLEANING

A soft cloth, wet sponge and approved household cleaners can be used for general periodic cleaning, in addition to regular squeegee use for drying.

GLASS PRODUCT PRECAUTIONS

Avoid abrasive cleaners or other non-detergent cleaners (listed below). Hydrofluoric and phosphoric acid are corrosive to the coating and glass surfaces and should not be used. Do not use abrasive brushes, razor blades or other sharp objects that may scratch the glass.

- Ajax
- Comet
- Cerium Oxide
- Citric Acid
- Rouge
- Vinegar

APPROVED GLASS PRODUCTS

The following products are approved for use to clean your glass surface, followed by a clean water rinse and squeegee dry.

- Clean Shower
- Scrubbing Bubbles Fresh Clean
- Scrubbing Bubbles Orange Action
- Tilex Fresh Shower
- Lime-A-Way
- Soft Scrub Lemon

HARDWARE CLEANING INSTRUCTIONS

Shower hardware is warranted for 1 year from installation. The best way to maintain your hardware finish is to wipe it down with a dry, non-abrasive towel regularly to prevent mineral build-up. Regular cleaning is also suggested to maintain that 'good as new' shine! The recommended method is a mild soap and warm water mixture, such as Ivory soap or similar. *Never use an abrasive cleanser!* Many components are coated with a clear lacquer that will be irreparably damaged if subjected to harsh abrasive chemicals or scrubbing devices.
